Commuters: Please bring your own
(preferably zero-waste) bag-lunch.

The 'old dream,' rooted in acquisition, consumption, and putting personal gain above communal good is dying. The *new dream* is emerging! It's community and collaboration; it's life-enhancing and earth-honoring.

Join us and experience an inspiring exploration into the links between the three facets of a *new dream* for humanity and planet Earth:

- *Environmental sustainability*
- *Social justice*
- *Spiritual fulfillment*

Together we'll go on a journey of planetary inquiry into what is possible for the future. This symposium combines leading edge information, live presentation, video clips, and group interaction.

You will come away with new and deeper levels of both awareness and readiness for effective action, with a profound sense of hope and purpose.

There is no cost to attend this event. However, **donations** are accepted.

Reservations are required.

Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has. ~Margaret Mead
